

# Practice a PDF text correction

This is a fictional sample. It contains no personal or customer data.  
Each line is a separate text block so you can inspect a small change.

## Editable project notes

Project: Sample room

Status: Draft

Material: Oak flooring

Quantity: 6 packages

---

## Try this change

1. Select the block containing "Status: Draft".
2. Replace it with "Status: Final" and commit the change.
3. Download the result and reopen it in a PDF reader.
4. Search for "Status: Final" and check the other three project lines.
5. Confirm the new text fits its original area. Keep the original file.

This example tests simple Latin text and a small, similar-length edit.  
It does not demonstrate OCR, CJK fonts, forms, signatures, or reflow.
